# Welcome to Paradise.

At CWS we consider high-quality washroom equipment to not only be a sign of appreciation towards customers and employees, but also your company's "business card". As the trendsetter in hygiene, design and customised solutions, we are proud to present CWS ParadiseLine, our innovative line of dispensers.

Discover the endless possibilities!

## Our dispensers at a glance:

## Active White.

A high-tech and unique design paired with the elegance of white front panels lend your washroom a cosmopolitan flair. As clean and pure as a washroom should be; the ParadiseLine products, our premium Swiss brand, dovetail discretely into any design. The unobtrusive exterior combined with clear lines conveys the sophisticated look of our day.

CWS Paradise Cleanseat is the convenient solution for regular professional cleaning of the toilet: the toilet seat has a fully automatic self-cleaning function after each use and fits onto any standard toilet.

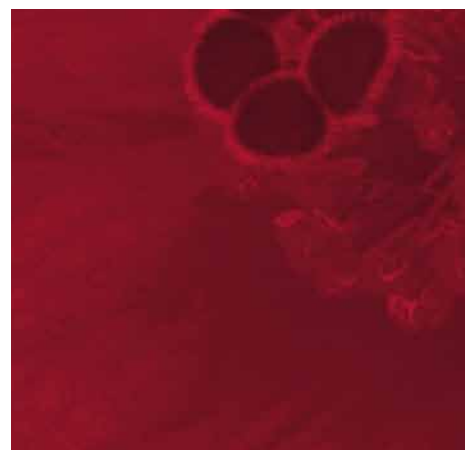

## Royal Red.

The passion and energy we invest in the development of our products is transported directly to your washroom with the dispensers in red. Quality is reflected both intensely and extraordinarily in the high-class surfaces of our front panels.

The non-touch versions offer an additional level of hygiene, and pre-set portions make them particularly economical. Integrated sensors allow non-touch dispensing of the desired portion of foam soap or towel. Moreover, thanks to the sensor, the used disposable hand towel and end of the roll are automatically retracted.

# Black Pearl.

Modern architecture paired with timeless elegance and classic lines – front panels in black lend fascination to any washroom. The striking look will have your customers and employees returning time and time again.

The Paradise Air Bar fragrance dispenser provides for lasting, individual scenting and perceptible freshness in an environmentally-friendly way. Its functionality and look make Air Bar the intelligent standard for your washroom.

## Navy Blue.

Immerse yourself in your own underwater world. Front panels in blue add a cool and refreshing touch to your washroom and, at the same time, the room radiates peace and calmness.

Our CWS cotton towel dispenser systems are certified with the “Blue Angel” ecolabel and protect valuable resources. With it you are sending a clear signal of your commitment to the environment – with every portion of towel made from pure cotton. Using the CWS cotton towel dispenser system means no waste is generated and your washroom stays neat and tidy.

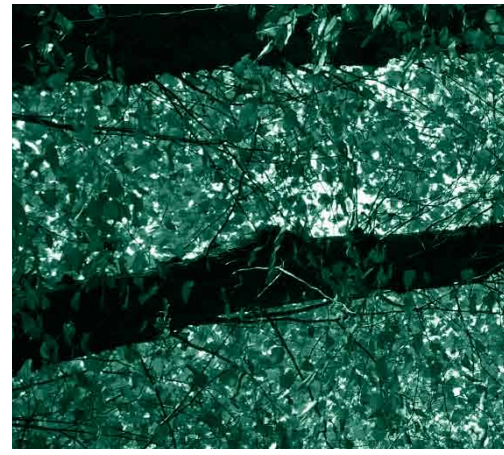

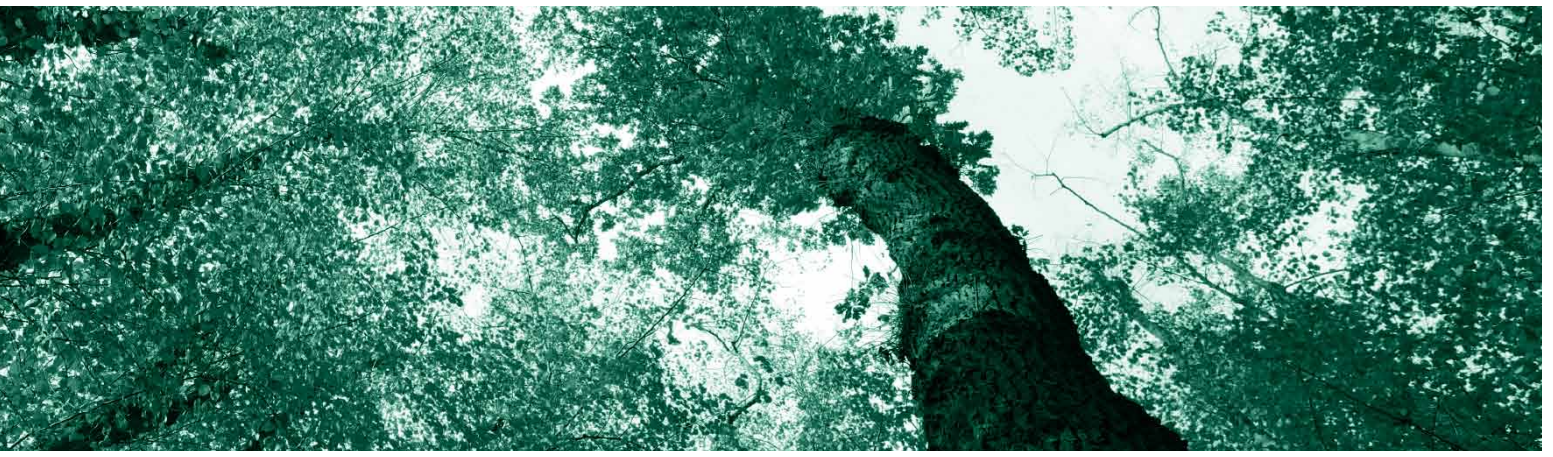

# Forest Green.

At CWS we adapt to individual needs, set washroom trends and bring colour into play. Why not design your washroom with front panels in green – a calming colour which radiates security and harmony. Discover the CWS ParadiseLine products for your washroom.

With Paradise Foam Non-Touch by CWS, pleasant soap foam is always available. When the hand approaches the dispenser, a portion of microfine foam is released with no dripping. Together with the complementary care product Paradise Handlotion, you can be sure that your hands are in the best possible hands.

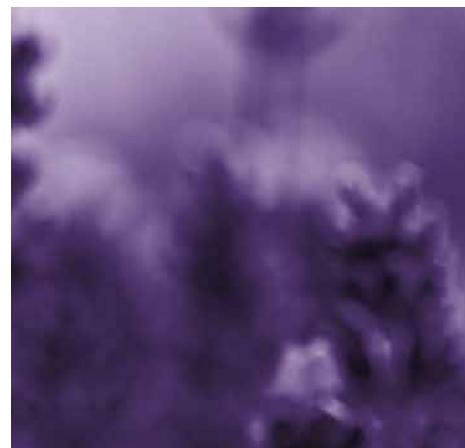

## Posh Purple.

Be bold and strike the right note with front panels in purple. This expressive colour lends your washroom a feeling of extravagance and uniqueness. Escape to an elegant, inspiring world and let your imagination run free.

High-quality CWS designer dispensers leave a lasting impression with their exciting, first-class look. They are available in all versions as a complete dispenser family. In 2009, the entire line of dispensers was awarded the "reddot design award" and the "CMS Purus Award". In 2011, it received the PLUS X Award in the categories "Innovation, High Quality, Design, Functionality and Ecology" and for the "Best Product of the Year 2011".

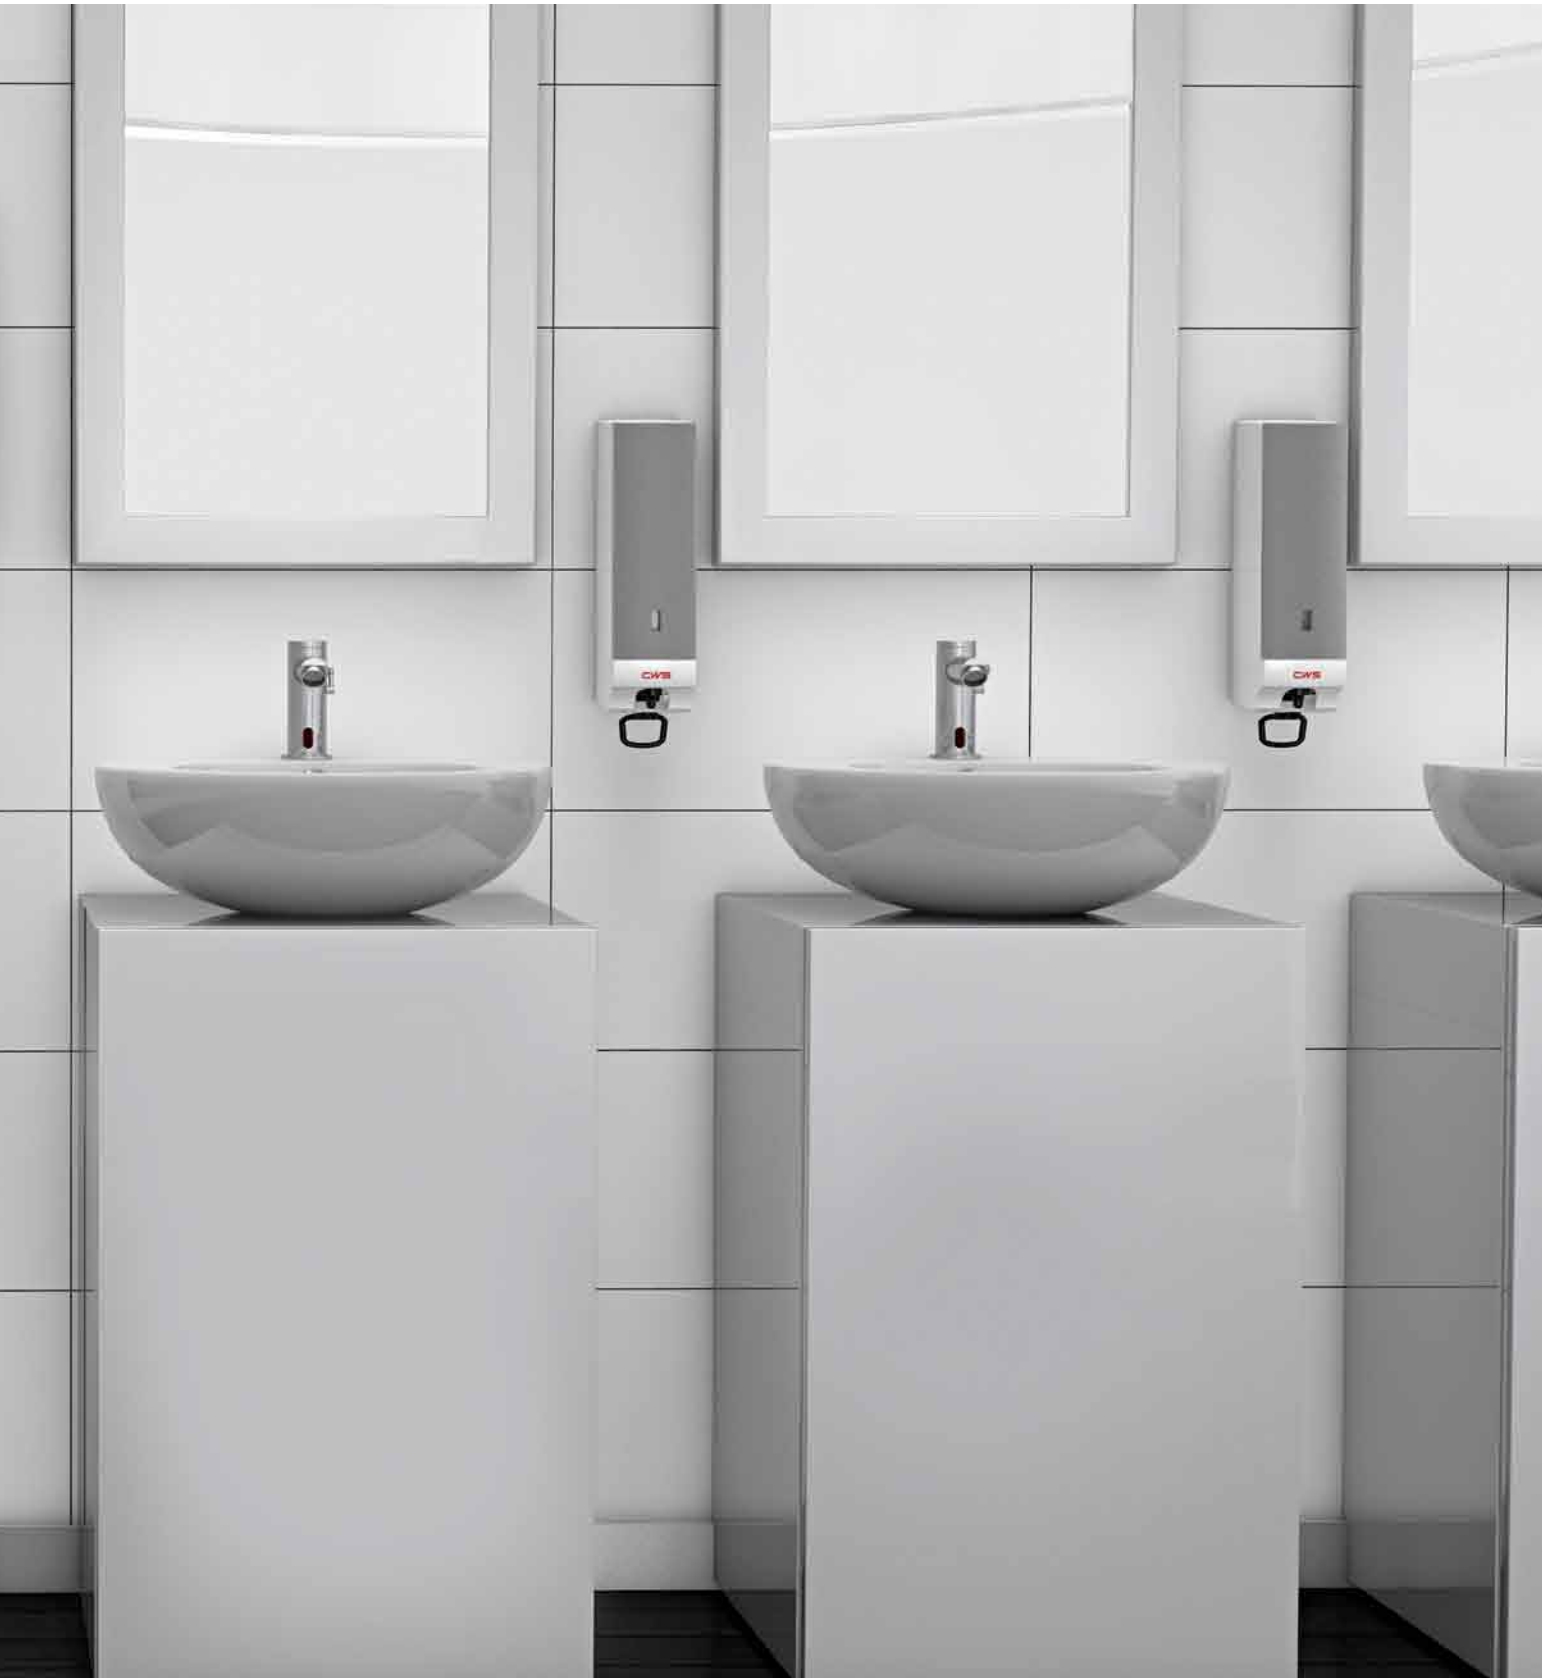

# Silversense.

The products from CWS set the standard for immaculate hygiene and well-being in the washroom. Front panels in silver express personality and glamour. A timeless appearance in the glow of the lights, a sense of exclusive harmony in combination with the architecture and fittings.

The professional CWS service offers you all-round care. All dispensers are available on a rental basis. This means customised consultation with concept solutions, professional installation, regular maintenance on site and delivery of consumables.

## IndividualLine.

Unused advertising space? Not at CWS – use new platforms of communication with the Paradise IndividualLine dispenser system. Thanks to customisable front panels on the CWS dispensers, the dispenser can be used as a direct line of communication with your guests or employees.

Present your campaign images, pictures or company logos in the washroom to open unconventional paths of communication. The time used to dry hands and eye-level positioning both ensure a high level of perception and an unimagined quality of contact.

# 10 good reasons for choosing CWS cotton towels.

- 01 | **Comfort** > Naturally at home – and the same sense of well-being elsewhere too.
- 02 | **Hygiene** > A fresh unused cotton towel portion for every single user.
- 03 | **Skin protection** > Kind to the skin, made of soft cotton fibres.
- 04 | **High quality** > Conveys your appreciation of staff and customers.
- 05 | **Efficiency** > Excellent and quick-drying effect.

- 06 | **Waste avoidance** > No residual waste, no disposal costs, no waste problem.
- 07 | **Sustainability** > State-of-the-art cleaning technology requires only minimal amounts of detergent, water and energy.
- 08 | **Full-service** > Professional cleaning of rolls in CWS laundries.
- 09 | **Expert care** > Individual consultations: optimal cost and ambience planning.
- 10 | **Cost-saving rental service** > No purchase costs for dispensers.

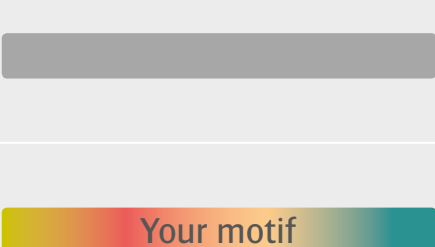

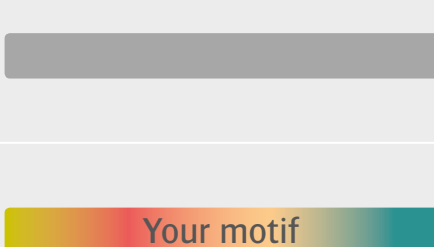

# CWS ParadiseLine. Overview.

Ideal hygiene is our top priority. CWS offers you a complete family of dispensers to create a washroom with a harmonious and clean design as your company's business card. CWS as the trademark for hygiene, design, innovation and quality in association with sustainable thinking and actions. Your partner for complete washroom solutions. The CWS Paradise towel, soap and fragrance dispensers have front panels available in various colours and finishes. This gives you the possibility to create the
